RAWHIDE IS A LIVE ONE.

Colonel C. W. Rigdon, one of the pioneers of Fairview and Wonder, accompanied by Judge C. W. Wampler, one of the first settlers of Wonder, arrived here yesterday from a trip to Rawhide. "If I had a million dollars," said Colonel Rigdon, "I'd spend every cent of it in Rawhide mining property. It is the greatest surface camp I have ever seen and they can't beat it anywhere."—State Journal.

BLACK HORSE TO HAVE MILL

The contracts for mill site and water rights for the Blackhorse Reduction Company, in the Blackhorse district, have been fully signed by all parties concerned and fully approved by the Eastern capitalists who are providing the money to build the plant. This is the good news for Blackhorse ore producers, which A. G. Burritt was enabled to give out. He said further that the material and machinery for the new mill would be collected on the ground as rapidly as possible, and that no time would be lost in getting the stamps ready to drop.

It is to be a 20-stamp mill, with concentrating plant capable of handling at least 60 tons of ore a day. The site obtained for it is on the San Pedro townsite, where there is an abundant water supply, and the location being convenient for the producing properties of the camp. Mr. Burritt promoted the project solely for the benefit of the camp and the contract stipulates that the mill is to take ore from the mines of the district without discrimination. The company that is to build the mill will be known as the Blackhorse Reduction Company.

Milling facilities is the one thing needed to make Blackhorse an important producing camp. A large proportion of the ores obtained there would be of shipping grade under ordinary circumstances, but the long haul to railroad precludes the shipping of anything but the very high grade. Leasers, even in the present time of depression, are working steadily on several properties, with most encouraging results.

Among the good showings in the camp is that in the Ohana property, where the bottom of the 40-foot shaft is entirely in ore carrying good values in gold and silver. In the Tilford property, west of the San Pedro, conditions similar to those in the Ohana prevail, while leasers on the Hamilton ground are in shipping ore. The Nil Desperandum shaft is down 240 feet, with good indications of soon encountering pay rock. The Lucky Boy has a good showing of lead-silver and gold ore, and the San Pedro has large quantities of milling ore in sight, with considerable high grade. It is predicted by those who know the district well that the completion of the first mill will mark the beginning of an era of great activity in the camp and that more mills are sure to follow.

CLAIMS WEBER PAID THE BILLS

RENO, Jan. 15.—Henry Weber paid all costs of the defendant in the case of W. W. Kirby vs. William Seymour et al, upon the understanding that the title of the property was to go to Weber in case the verdict was for the defense.

The plaintiff yesterday filed a notice of motion to have the cost bill dismissed. The total amounts to about \$300. Lewers & Huskey filed the notice. In it they allege that Seymour was never called upon to pay the costs of the suit, and in addition that more than two days' time had elapsed from the rendering of the decision until the time of filing the bill of costs.

This suit was strongly contested by both sides, involving as it did, title to some of the most valuable mining property in the Wonder district.

CHARGED TO HIM.

"Dear," began Mrs. Spender, coolly, "would you consider opals unlucky?"

"I would," replied her husband, shrewdly, "if I got a bill for some and had to pay it."

"Ah! I'm so glad I ordered the diamonds earrings instead."—Philadelphia Press.

A FOREGONE CONCLUSION.

"My daughter is going to marry a millionaire."

"Isn't that nice? Who is he, and when is the wedding to be?"

"I don't know yet. She's just joined the chorus."—Detroit Free Press.
